Turnitin
Feedback Studio and
D2L Brightspace
Fully Integrated Solution

Designed to fit your workflow within D2L Brightspace, Turnitin Feedback Studio for D2L Brightspace provides easy access to the most effective similarity checking service and a robust set of feedback and grading tools without ever having to leave your LMS environment.

Deter Plagiarism and Promote Academic Excellence

Turnitin Feedback Studio within D2L Brightspace is the only comprehensive online learning tool proven to deter plagiarism and foster a culture of academic integrity. It empowers instructors with personalized feedback tools that engage students and develop critical thinkers.

81% Students believe that Feedback Studio helped them avoid plagiarism\(^1\)

77% Students believe that Feedback Studio helped them become better writers\(^1\)

\(^1\) Turnitin (2016). From Here to There: Students’ Perceptions on Feedback Goals, Barriers, and Effectiveness.
Engage Students from Draft to Dissertation

Original Insights - Check for potential plagiarism in student writing. Help students take ownership of their work and practice proper citation.

Feedback Fast - Save time with custom or pre-defined drag-and-drop comment libraries or reach your students with voice and text comments.

Accelerate Assessment - Grade objectively and consistently with standards-aligned rubrics and show students how specific parts of their work impact their grade.

Peer Review - Encourage discussion and reflection among students in your classes. Automatically distribute work and collect student feedback anonymously.

“Feedback Studio encourages you to work harder at putting your thoughts into words. Good writing skills will help you advance in your classes and career.”

Student, California State University East Bay
Seamless Integrations

Feedback Studio is easy to launch within Brightspace. Just log into Brightspace, create an external tool Turnitin assignment, review student submissions, and provide feedback and scores. Grades will appear in your Brightspace course and gradebook.

Support

When you partner with Turnitin, dedicated onboarding and support teams are available every step of the way - from implementation and onboarding to training and optimization. Only Turnitin has 24/7 global support in multiple languages and across all timezones.
