Seamlessly link Brightspace to McGraw Hill's digital solutions for single sign-on and gradebook synchronization, with all-in-one ease for you and your students.

Deep Integration for a Seamless Experience

A Seamless Student Experience
Provide a more elegant experience between the two platforms for your students

Single Sign-On
Get started easily and eliminate the #1 source of student complaints

Grade Synching
Ensure all assignment grades are automatically recorded in the Brightspace gradebook

Because learning changes everything.
Enjoy simplified access to the high quality, media-rich content and adaptive learning and assessment engines for faculty, students, and institutions.

**Key Features**

- **Single Sign-On**
  Deep integration with Connect and D2L Brightspace enables a single login location to access course resources.

- **Native Assignments**
  Connect assignments populate like D2L Brightspace assignments—in the assignment list, calendar, and to-do list.

- **One Gradebook**
  All Connect assignment grades are automatically recorded in the D2L Brightspace gradebook.

**Embedding the learning experience**

Deep integration offers seamless access to all course resources. More than just supporting single sign-on and grade-sync, it’s about embedding the learning experience within the LMS itself, allowing students to continue studying without interrupting their flow.

**Efficient Deployment**

Whether you choose to deploy across a school, a department, or a specific course our team will meet your training needs and make sure your questions are answered. Updating assignments and managing due dates is easy once pairing is complete, with changes cascading from Connect straight to D2L Brightspace - just like native assignments.

**Administrators and Designers**

- **How Can I Get It?**
  McGraw Hill deep integration with D2L Brightspace requires the installation of our app, after which instructors can pair their courses and start utilizing the platform.

- **Support**
  McGraw Hill provides first-class support and training to administrators, faculty, and students, including Quick Start Guides and Admin Guides.

- **Easy-to-Use**
  Designers can easily create consistent and rich, deeply embedded experiences for instructors and students, using engaging, media-rich, and high-quality content.
